Miriam Hopkins says:

"My throat welcomes Luckies-my favorite

cigarette for 5 years"

An independent survey was made recently among professional men and women-lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Hopkins verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies-a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

"Luckies have been my favorite cigarette for about 5 years. They're a light smoke that sensitive throats welcome. Of the many trends that sweep through Hollywood, one of the longest lasting has been the preference for Luckies. I once asked a 'property' man -who supplies cigarettes to the actors -what the favorite is. He answered by opening up a box containing cigarettes. They were all Luckies."

Sildewn strikes probably will continue to be a problem for a long time that telns the nature of any troublesome idea castly put into execution. But it is worth noticing that the trend in lowerd declicing them

In the national congress strong speeches have been made against them. In the Michigan lugislature mr. sames to abolish them have been introduced. The governor of Michigan who is said to take his cue from the White House tried to prove in a lengths and invoiced statement last wiek that he does not favor them

Politicians do what they think thele con tituents want them to do. The handwill ing is on the will when elective efficials begin to question the propriety of the sit down method no a matter of public policy Stidown striker on e statted can not be broken up without violence and govern ment can not afford to sanction violence The problem therefore is to aver, aldown strikes not to break them up. That will he easier to do if werkmen and labor lead are noting against public policy and there fore against their own intercets when this take possession of property to force set themsel of industrial disputes

Paris suffered these tremendous snocka Consternation but not lerror risped in the French capital. Air plants rushed into the sky but librar was no trace of a plane Finall although it seemed unbeine able the French arms decided that their must be a sun somewhere ner the front. But firing almost 30 miles on Paris. The idea was a greater shock than the shells failling on Paris. Gon bover Found. It was rapilly proped that the shots came from the Crepy forest but the was impossible to find the uni in the messive cannonade that occurred with nerve wracking realizing the All es rushed. I mass of batterles to the front nundreds of cannon fired blindly into the Crepy forest, and one shell actually landed so close that that huried Blg Bertha in diff. But throughout the remaining months of the war Blg Bertha.

But throughout the remaining months of the war Big Bertha the scourage of Paris, never was

the scourage of Pairs, never was discovered.

The Eig Bertha gun was a typical achievement of the mentality of the German high command IIs object was to strike terror into the hearts of the defenders of the Freich capial instead of terroring, the gun only strengthened the revisiance of the French Since Big Bertha fired on Paris there has been only one other case of heavy artillery firing on a city, the batteries hammering at Madrid.

drid Again there, a surprising fact-has been driven into the minds of military tacticians.—Big guns can do tremendous damage, but they only tell to stiffen, rather than desirey the morale of defending troops and civil populations.

Keep Foods Constantly Cool During the Teeter-Totter Temperatures of Spring

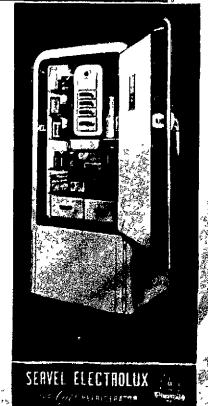

OW seldom during the

changing temperatures

of spring is the outside temperature just right for preserving foods. Above 50 degrees, bacteria is active and food spoils rapidly, Freezing and thawing temperatures below 40 degrees cause food cells to break down, allowing loss of the food's nutritive value and producing a flat taste. With a 1937 Servel Electrolux gas refrigerator you are assured of food preservation at proper temperatures - from 40 to 50 degrees. Also, humidification of air retards the drying out of food. The extremely low cost of natural gas refrigeration enables you to enjoy its advantages the

BRIGHT RIC-RAC MAY ACCENT FROCK OF COLORFUL COTTON PRINT

To yes a thousand times yes. Sure vardrobe must include this yes and at home frock that will be made and a fine frock that will be made and a fine frock that will be made and a fine from the first places, and admiration from your family to morning and admiration from your family to make becoming, up-to-minate outfits quickly and in-expensively at home. Revel in a wide choice of sparkling all-occasion frocks, suite, blouses—with special, slimming styles for time is one in approval of the besover tess the slash. Arrogding to Mr. Clarks 1893

According to Mr. Clarka into pretation. The purpose of the posposed aborderment of the regulation plays for the hands of a
few protessimal ball players who
have deitherately violated the
rules. Why call it a Similary
achine league if the players neanot bone fills members of the Stinday achinels while they represent?

Mr. Clark maked.

"The situation has become so
estimate that in some masse, bone
filts members of a Similary achinel
have been required to all on the
heigh in order that professional
hall players be given the importantify to play." In added Advisorating a program of inforcement tunity to play," he added Astro-cating a program of inforcement rather than repeal, he offered this solution, "Every one who plays in a Similary about league should be required to attend at least batt of the Standarys from April 1 (2) Sept. 4, monthly reports should be closed to accuracy element of the Openion lowed after any violation of nob-eligibility in which to file a pro
